Revise

Reset

If the user chooses to revise a publication, then the user would enter a short title in the space provided. The form will be populated with the information from the master catalog. The user would be able to make revisions to the information provided and then submit the revisions back to the master catalog.

Your Publication has been updated to the Master Catalog.

Return 
Main menu

The new revisions made to the publication would be updated to master catalog and readily available on the web site.
